Technical analysis

The chart of Ultratech Cement on the 5-minute timeframe shows a positive shift in momentum. The share continues its bullish trend and making higher high formation. The stock is trading above its EMA 20 level of 11825. The Supertrend indicator further supports this bullish sentiment, with the price staying above the green band. The upward movement after breaking previous resistance level around 11780 suggests strength and the possibility of further gains. So we recommended buying ULTRACEMCO 11900 call option in the expectation of reaching at least 12000 level in coming sessions.
