Technical analysis

SBI Life Insurance Co Ltd share prices remained under pressure since the beginning of the session. The stock has witness a continuous fall without any sign of bouncing back. It breaks previous support area of 1430 and trading below it, indicating a potential further downside move. The bearish view is backed by couple of indicators, such as the prices are trading below its 20 EMA level and Supertrend indicator is showing bearish trend as red zone is active in it (as shown in image below). Thus, we recommend SBILIFE 1440 PUT options.
