Technical analysis

The chart of Vaibhav Global Ltd. (1-hour timeframe) shows a recent recovery attempt after a prolonged downtrend. The stock has repeatedly bounced from the ₹306 level, indicating strong buyer interest and a solid support zone, which could act as a base for further upward movement. The price has been consolidating near key support, and consolidation after a downtrend suggests a strong breakout to the upside. If we talk about fundamentals YOY sales has increased to 3041 Cr in FY 24 as compared to 2691 Cr in FY23. On the basis of above analysis we recommended to buy Vaibhav global.
