**Technical analysis**

Shriram Finance Ltd share prices continue its bearish trend in today's session also. The trend turn bearish after it breaks its important support level of 3200 yesterday. Since then the prices remained under pressure with no sign of bouncing back. The prices continuously trading below its 20 EMA level, indicating a potential of a further downside move. The prices breaks the previous support level of 3070 with good volumes and expected to continue its bearish trend. The bearish view is backed by couple of indicators, such as the prices are trading below its 20 EMA level and Supertrend indicator is showing bearish trend as red zone is active in it (as shown in image below). The prices are expect to test the next support area of 2990 level with 3080 as the resistance level. Thus, we recommend SHRIRAMFIN 3050 PUT options.
