### **Technical analysis**

Tata Motors Ltd share prices continue its bearish trend in today's session also. The stock is continuously trading in bearish zone since couple of trading sessions. The stock opened at gap down and starts sliding down with good volumes after consolidating for few minutes. On technical front, the price is trading below its 20 EMA level, indicating a potential of a further downside move. Supertrend indicator is showing bearish trend as red zone is active in it (as shown in image below). The prices are expected to reach 735 with 753 as the resistance level. Thus, we recommend TATAMOTORS 760 PUT option.
