Technical analysis

Enviro Infra Engineers Ltd share keeps finding support near 310 levels, as prices are bouncing from these levels. In short term period, the stock is looking in a uptrend as it is forming a higher highs pattern. The volumes are increasing along with the upside move, indicating a strength in the running bullish momentum. The bullish view is backed by couple of indicators, such as the prices are trading above its 20 EMA level and Supertrend indicator is showing bullish trend as green zone is active in it (as shown in image below). Thus, we recommend buying EIEL share.
