Technical analysis

BSE Ltd share prices opened higher with negative bias. The prices took support near 5260 level after falling in first hour of morning session. Stock recovers sharply after finding strong support near 5260 level. The prices continue its rally as volumes start increasing after 5400 level. On technical front, the prices are trading above its 20 EMA level of 5378, indicating a bullish momentum. Supertrend indicator is showing bullish trend as green zone is active in it (as shown in image below). The stock is trading in upward direction as can be seen with the help of a trend line which is drawn on chart with blue color line, thus it is likely to continue its bullish momentum. On the downside, 5330 can act as a support level. On the basis of above analysis, we recommend BSE 5500CALL option.
