Technical analysis

Infosys Ltd share prices continue its bearish move today. The price opened gap down and witness some pullback in morning session, however, it didn't sustain above its 20 EMA level and continue its fall again. On technical front, the prices are trading below its 20 EMA level indicating a bearish momentum. Supertrend indicator is showing bearish trend as red zone is active in it (as shown in image below). The prices are expect to move down more 1-2%. On the upside, 1840 can act as the resistance level. Thus on the basis of above analysis, we recommend INFY 1800 PUT options.
