**Our recommendation**

OPTIONS INSIGHT- BUY SBIN 770 PUT ABOVE 22 TARGET 32/42 SL BELOW 17

**Technical analysis**

State Bank Of India share prices remained under pressure since yesterday session due to forthcoming its quarterly result. After its quarterly announcement the prices moved higher and reached it resistance zone of 768-770. Supertrend indicator is still showing bearish trend as red zone is active in it, even though some sharp upside move has come in the stock. If the prices failed to cross above 770 level it is likely to retest its day’s low. On the higher side 770 can act as the resistance level. Thus on the basis of above analysis, we recommend SBIN FEB 770 PUT option.
